CASE NO.

* * * * *

Violations of Federal and State Consumer Protection Laws

Angela and Myself was given a loan preservation counselor named, Keon Baker of Wells Fargo. I began calling his number in January 2011 (1877-242-5052x29405) even leaving him messages. I got no return calls. I began speaking to managers about the situation and they said that they would call his manager to see why he wouldn't return your call. Around August or Sept 2011, I felt that he was helping my wife take our home from me. I ask an attendant one day has he been speaking to my wife and found out that he had. In fact I found out that on June 9th he sent her a prepayment plan packet which was returned, whereby she made a payment on it July 1st 2011. Then she called in August and cancelled the plan. I got this information from Ana at 1-866-234-8271 and later from another loan preservation counselor named Barbara 1877-242-5052x29351. Mrs Tyson should not have been allowed to have that prepayment plan without my signature.
